

**RICE VERIFICATION  
PROGRAM**

**MAY 31, 2024**

## **General Information**

The heavy rainfall from the end of the previous week helped incorporate the fertilizer applications. We're looking forward to second fertilizer applications on two fields and the first application for the third. We're preparing the poly pipe for when the rain decides to turnoff.

Table 1. Verification field information for the weeks of May 26th - June 1st.
