

## General Information

We're wrapping up fertility programs on two of the fields. Irrigation began at all locations last week after the Tuesday rainfall moved out of the area. We're happy with the results from the RiceBeaux application on the Stoddard (Schuchart) field. The focuses are insect and disease levels, especially with reports of leaf blast in the Northeast region of Arkansas.

Figure 1. NOAA 7-Day Total Precipitation 6/25 - 7/02.

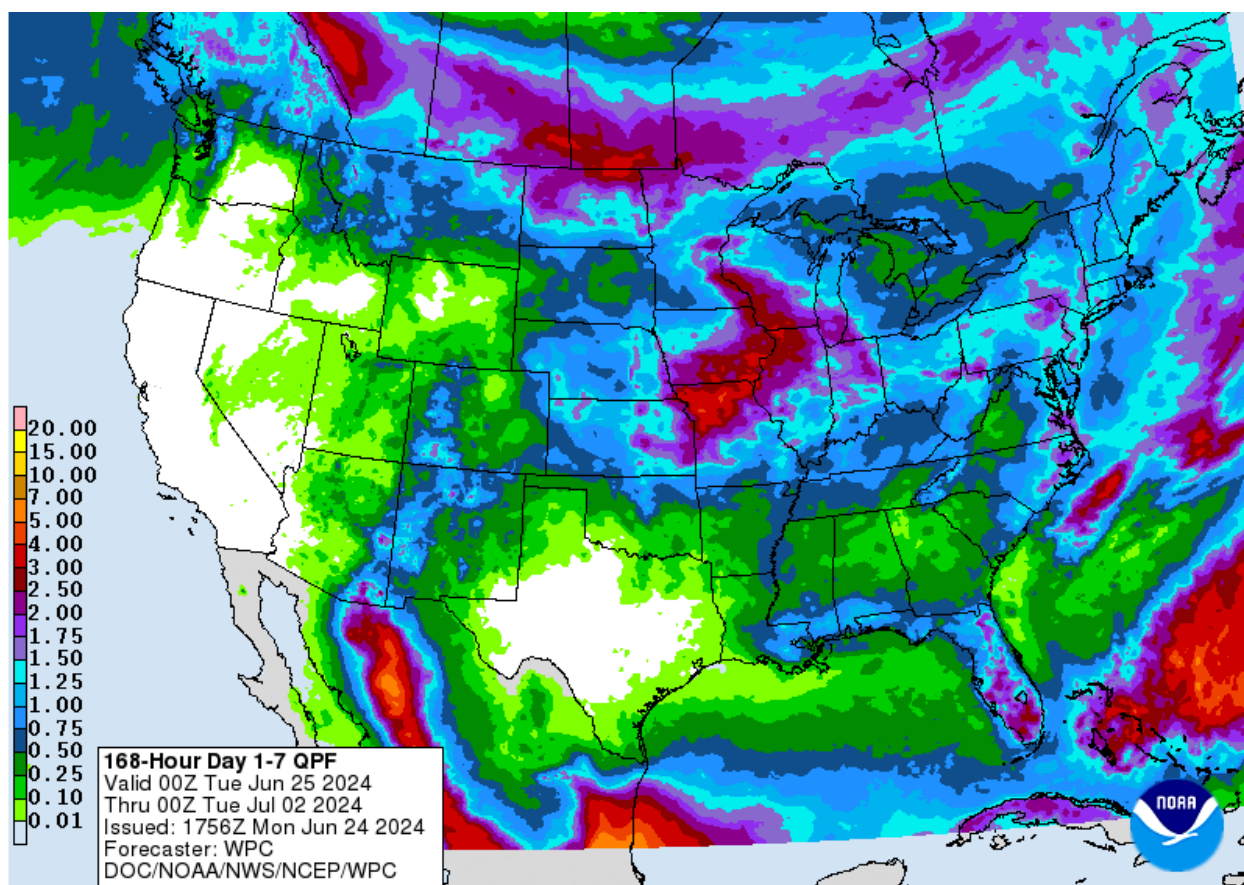

Table 1. Verification field information for the weeks of June 16th - June 22nd.

<b>County</b>	<b>Cultivar</b>	<b>Planted/Rate/Stage</b>	<b>Agronomic Details</b>
Mississippi Sharkey Clay	RT XP753* (FIR)	4/1/24#/ Green Ring	Recommend Third Urea + NBPT (100 lbs.)
Stoddard (McMeans) Silty Loam	RT 7521 FP* (FIR)	4/15/22# Green Ring	Recommend Third Urea + NBPT (100 lbs.)
Stoddard (Schuchart) Clayey Loam	DG263L+ (FIR)	4/23/40# 7th Tiller	Second Urea + NBPT (100 lbs.) 6/17  First irrigation 6/20

\*RiceTec Seed Treatment which insecticide, fungicide, zinc, and gibberellic acid.

+Dyna-Gro Seed Treatment which insecticide, fungicide, zinc, and gibberellic acid.

This project would not be possible without the cooperation of the following individuals, Ben Ray, Brandon Copeland, Jennifer and Oliver McMeans, John Davis, Cody Placher, and Paul Schuchart.
